

Summer Internship Learning Plan

Aditi Shetty

June – July 2026

1 Introduction

This document presents my learning plan and objectives for the summer internship. The internship aims to enhance technical skills through practical tasks and project-based learning.

2 Weekly Schedule

Day	Activity	Duration
Monday	Python Programming	4 Hours
Tuesday	AutoCAD Practice	4 Hours
Wednesday	Arduino Projects	4 Hours
Thursday	Documentation and Reports	4 Hours
Friday	Project Development	4 Hours
Saturday	Self Learning	2 Hours
Sunday	Weekly Review	1 Hour

3 Learning Objectives

- Learn Python programming and file handling.
- Understand image processing using OpenCV.
- Gain experience with AutoCAD design tools.
- Learn technical documentation using LaTeX and TeXstudio.
- Explore Arduino and ESP32 based projects.
- Improve presentation and report writing skills.

4 Expected Outcomes

1. Complete all assigned internship tasks.
2. Develop practical programming skills.
3. Create technical reports and presentations.

4. Gain hands-on experience with engineering software tools.
5. Improve problem-solving and analytical abilities.

5 Conclusion

The internship provides an opportunity to strengthen technical knowledge, gain practical experience, and prepare for future academic and professional challenges.
